

Paste, butter and milk

MARQUIS
MARKETING

Given its high oil content and distinctive flavour, macadamias produce the finest pastes and butters. The applications for macadamia butters are endless, you can use them as:

- an ingredient in soups and sauces
- a flavouring in ice-cream and other dairy products
- a spread on bread and toast
- ingredient for macadamia milk which is quickly developing a reputation in the rapidly expanding nut milk market

Whether you are looking for a raw or roasted, fine, course or crunchy paste *we can design a product solution for you.*
